

This is how Anna started:

Here is what Brendan tried:

Here is Chandra's initial approach to the problem:

1	1	
4	16	Area:
7	49	1056
8	64	
9	81	$528 \div 2$
10	100	$264 \div 2$
14	196	$132 \div 2$
15	225	$66 \div 2$
18	324	33
		1056

J

Can you take each of these starting ideas and develop them into a solution?
