Always, Sometimes or Never? – Statement cards

Are the following statements always true, sometimes true or never true?

Number

When you add two numbers you can change the order and the answer will be the same	If you add 10 and take away 1 it is the same as adding 9
When you add 10 to a number the answer is a multiple of 10	When you subtract one number from another number you can change the order and the answer will be the same.

Shape

If you put two squares together you get a rectangle	3D shapes have more than four faces
When you cut a square in half you get a triangle	Four sided shapes are called squares
Three sided shapes are called triangles
