

Part 2

In Julie's hall there is a very old clock which lost its hour hand a long time ago.

School finishes at half past three and it takes Julie at least half an hour to get home.

When she first gets home Julie always looks at the clock in the hall to see what time it is.

One week these were the times she saw:

On which day was it raining so she hurried straight home?

On which day did she go to the shop to buy some sweets on the way home?

On which day did she stay at school to practise in the band?

On which day did she play with Sam for about half an hour before setting off for home?

On which day did her teacher keep the class in for five minutes?
