

What stories can be told about the sporting events represented in these graphs and diagrams?

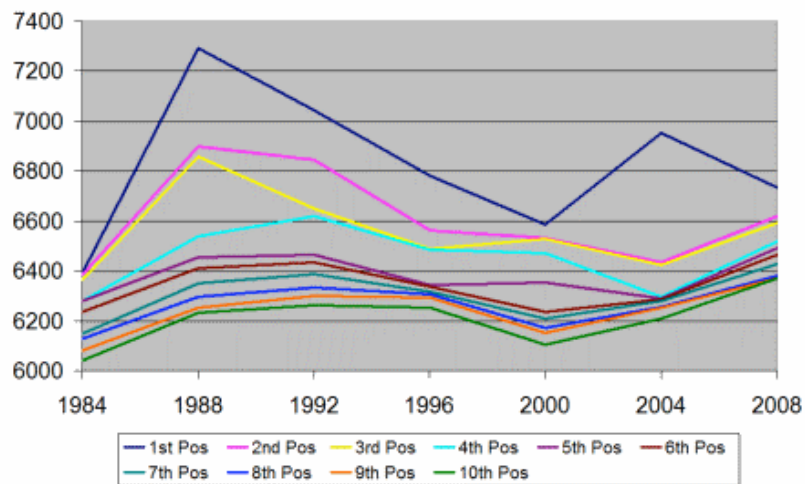

Baskets made (o) and missed (x) in the fourth quarter of a basketball match

Shots on and off target for one team in a football match

Finishing Scores of top ten athletes in Olympic heptathlon

- What information can you deduce from each diagram?
- If you were a sports coach (for the team in question, or perhaps their future opponents), how might you use the information in each diagram?
- Do the diagrams raise any interesting questions for you?
